Internship Field-Based Experience Activities

Jack Robertson

Assess the Quality of Technical Support and Level of Teacher Satisfaction	Standard 7 Procedures, Policies, Planning, and Budgeting for Technology Environments	Review online trouble tickets to determine average length of time required to solve most technical issues and conduct a survey to measure teacher's satisfaction level with current technical support services. Review data and meet with administrators.	Brent Evans	Spring 2011
Conduct an Evaluation of the School's Strengths and Weaknesses in Implementing National Technology Standards	Standard 8 Leadership and Vision	Use the ISTE's essential conditions to conduct evaluation of school's technology strengths and weaknesses and consult with the technology leader to devise steps to move school toward meeting the national technology standards.	Brent Evans Ken Hefley	Spring 2011

Internship Plan: Field-based Experience Activity

The Field-based Experience component of the Internship Plan is a brief, but specific document indicating your overall approach to the Internship program. Using this document, you will identify the field-based activities you will approach and indicate which of the eight ISTE Technology Facilitation standards was addressed in each activity. You should also provide a brief description of each activity, resource person, and a completion date for each activity. This activity should be completed with and approved by your site mentor.

Brent Evans, principal SHS
